

Typescript Code generation for Automation

The screenshot shows a web browser window with the Testleaf logo and a login form. The login form is titled "Leaftaps Login" and contains fields for "Username" and "Password", along with a "Login" button. To the right of the browser window, there is a sidebar with a dark background. The sidebar contains a green button labeled "Code G" and a checkbox labeled "Test / Fe". Below these, there is a code editor displaying TypeScript code for a test suite.
