

Typescript Code generation for Automation

The screenshot displays a web browser window with the Testleaf logo and a login form. The login form is titled "Leaftaps Login" and contains fields for "Username" and "Password", along with a "Login" button. To the right of the browser window, a sidebar is visible, featuring a green "Code G" button and a "Test / Fe" button. Below these buttons, a code editor displays TypeScript code for test automation.
